APPLICATION TO ZONING BOARD OF APPEALS

NAME _____ PHONE _____

ADDRESS _____

I (We) hereby appeal to the Zoning Board of Appeals to/for _____

_____ (Describe application), dated _____, 20____

1. Location of property _____

2. Zoning District: _____

3. Appeal made herewith for:

Area Variance		
Conditional Use Permit		_____
Use Variance		_____
Appeal of Decision of Zoning Enforcement Officer		_____
Other		_____
Pre-existing Non-Conforming Lot of Record		_____

4. A previous appeal () has () has not been filed with respect to this property request. If an appeal has been previously made please indicate:

Appeal No. _____

D

AREA VARIANCE

When an applicant requests an Area Variance, the Board of Appeals shall balance two elements: the benefit to the applicant from the variance and the detriment to the health, safety and welfare of the community or neighborhood that would occur if the variance were to be granted. The provisions set forth five factors for the Board to consider in balancing these interests.

1. Whether an undesirable change will be produced in the character of the neighborhood, or a detriment to nearby properties will be created by the granting of the variance.
2. Whether the benefit sought by the applicant can be achieved by some feasible method other than a variance.
3. Whether the requested variance is substantial.
4. Whether the proposed variance will have an adverse effect or impact on the physical or environmental conditions in the neighborhood or district.
5. Whether the alleged difficulty was self-created, which consideration shall be relevant to the decision of the Board of Appeals, but shall not necessarily preclude the granting of the area variance.

An Area Variance shall not include change in use or density.

USE VARIANCE

An individual who wants to utilize property for a use that is not permitted by the zoning ordinance must apply for a use variance. An applicant for a use variance must demonstrate unnecessary hardship by satisfying EACH of the following three tests: **ALL THESE ITEMS MUST BE SATISFIED.**

1. Uniqueness

The applicant must prove that there are certain features or conditions of the land that are not generally applicable throughout the zone AND that these features make it impossible to earn a reasonable return without some adjustment. If the features or conditions are generally applicable throughout the district, a variance should not be granted. In those situations where the difficulty is shared by others, the relief should be accomplished by an amendment to the zoning ordinance, not a variance.

2. Reasonable Return

The applicant must demonstrate an inability to realize a reasonable return under any of the uses permitted by the zoning ordinance. There must be a "dollars and cents" proof of the applicant's inability to realize reasonable return; speculation or qualitative assessment is inadequate. Failure to realize the highest return is not considered a hardship.

3. Character

The applicant must prove that the requested modification will not change the character or quality of the neighborhood. In addition, the "spirit" of the ordinance or local law should be preserved.

4. Hardship A use variance should not be granted if the "unnecessary hardship" was created by the applicant.

The applicant for a use variance must meet all four tests before the appeals board may grant relief. If the appeals board grants a use variance to an applicant who has failed to meet each of the tests, it runs the risk of assuming the function of the legislative body and making a decision contrary to the legislative intent of the zoning ordinance.

CONDITIONAL USE PERMIT

General Standards for All Conditional Uses are set forth in Article 6 Section 610 of the Town of Beekmantown Zoning Law.

ZONING BOARD OF APPEALS
TOWN OF BEEKMANTOWN
TOWN HALL

ALSO ON YOUR APPLICATION THE FOLLOWING MUST BE COMPLETE 1.

1. All information required thereon with supporting documents, shall be complete before an appeal is considered filed. Ten (10) sets of documents shall be required before the 15th of the month preceding the hearing of the appeal.
2. Applicant shall include a list of names and addresses in letter format of all property owners within (500) five hundred feet of the exterior boundaries of applicants property.
3. Applicant must have a map drawn to scale of property in question, location and width of all existing and proposed structures, and a copy of the tax map. You will find, for your convenience, a piece of graph paper attached to help you with your scale drawing.

APPLICATIONS MUST BE FILED BY THE 15th OF THE PRECEDING MONTH IN ORDER TO BE ON THE NEXT MONTH'S AGENDA.

'An agenda for the ZBA must appear in the legal section of the newspaper of record for the ZBA, 8-10 days before a public hearing. Appeals with incomplete applications will not be submitted as part of the Agenda and therefore cannot be heard until such appeal appears in the Legal Section as indicated above.

Appendix B
Short Environmental Assessment Form

Instructions for Completing

Part 1 - Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 - Project and Sponsor Information			
Name of Action or Project:			
Project Location (describe, and attach a location map):			
Brief Description of Proposed Action:			
Name of Applicant or Sponsor:		Telephone:	
		E-Mail:	
Address:			
City/PO:		State:	Zip Code:
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation? If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.			NO
			YES
2. Does the proposed action require a permit, approval or funding from any other governmental Agency? If Yes, list agency(s) name and permit or approval:			NO
			YES
3.a. Total acreage of the site of the proposed action?		_____	acres
b. Total acreage to be physically disturbed?		_____	acres
c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor?		_____	acres
4. Check all land uses that occur on, adjoining and near the proposed action.			
<input type="checkbox"/> Urban <input type="checkbox"/> Rural (non-agriculture) <input type="checkbox"/> Industrial <input type="checkbox"/> Commercial <input type="checkbox"/> Residential (suburban)			
<input type="checkbox"/> Forest <input type="checkbox"/> Agriculture <input type="checkbox"/> Aquatic <input type="checkbox"/> Other (specify): _____			
<input type="checkbox"/> Parkland			

5. Is the proposed action, a. A permitted use under the zoning regulations?	NO	YES	N/A
b. Consistent with the adopted comprehensive plan?			
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?	NO	YES	
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area? If Yes, identify: _____	NO	YES	
8. a. Will the proposed action result in a substantial increase in traffic above present levels? b. Are public transportation service(s) available at or near the site of the proposed action? c. Are any pedestrian accommodations or bicycle routes available on or near site of the proposed action?	NO	YES	
9. Does the proposed action meet or exceed the state energy code requirements? If the proposed action will exceed requirements, describe design features and technologies: _____	NO	YES	
10. Will the proposed action connect to an existing public/private water supply? [If Yes, does the existing system have capacity to provide service? <input type="checkbox"/> NO <input type="checkbox"/> YES] If No, describe method for providing potable water: _____	NO	YES	
11. Will the proposed action connect to existing wastewater utilities? [If Yes, does the existing system have capacity to provide service? <input type="checkbox"/> NO <input type="checkbox"/> YES] If No, describe method for providing wastewater treatment: _____	NO	YES	
12. a. Does the site contain a structure that is listed on either the State or National Register of Historic Places? b. Is the proposed action located in an archeological sensitive area?	NO	YES	
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency? b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody? If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres: _____	NO	YES	
14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply: <input type="checkbox"/> Shoreline <input type="checkbox"/> Forest <input type="checkbox"/> Agricultural/grasslands <input type="checkbox"/> Early mid-successional <input type="checkbox"/> Wetland <input type="checkbox"/> Urban <input type="checkbox"/> Suburban			
15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?	NO	YES	
16. Is the project site located in the 100 year flood plain?	NO	YES	
17. Will the proposed action create storm water discharge, either from point or non-point sources? If Yes, a. Will storm water discharges flow to adjacent properties? <input type="checkbox"/> NO <input type="checkbox"/> YES b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)? If Yes, briefly describe: _____	NO	YES	

18. Does the proposed action include construction or other activities that result in the impoundment of water or other liquids (e.g. retention pond, waste lagoon, dam)? If Yes, explain purpose and size: _____ _____	NO	YES
19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility? If Yes, describe: _____ _____	NO	YES
20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste? If Yes, describe: _____ _____	NO	YES
I AFFIRM THAT THE INFORMATION PROVIDED ABOVE IS TRUE AND ACCURATE TO THE BEST OF MY KNOWLEDGE		
Applicant/sponsor name: _____		Date: _____
Signature: _____		

Part 2 - Impact Assessment. The Lead Agency is responsible for the completion of Part 2. Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?		
2. Will the proposed action result in a change in the use or intensity of use of land?		
3. Will the proposed action impair the character or quality of the existing community?		
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?		
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?		
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?		
7. Will the proposed action impact existing: a. public / private water supplies? b. public / private wastewater treatment utilities?		
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?		
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?		

	No, or small impact may occur	Moderate to large impact may occur
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?		
11. Will the proposed action create a hazard to environmental resources or human health?		

Part 3 - Determination of significance. The Lead Agency is responsible for the completion of Part 3. For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

<input type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.	
<input type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
